Supportive Innova

At Innova, social action is a significant aspect in our vision of improving the way the world develops and it represents our values in a prominent way.

Since the beginning, Innova has promoted a **caring culture** and committed to and involved in numerous projects which have helped improve the quality of life of the most disadvantaged in society and foster talent and diversity.

In so complicated a year as 2020 has been, every gesture has counted and for this reason, **we have supported Spanish science and research, sport, talent and youth, Third World children who lack vaccines and the improvement of the quality of life of children with cancer and their families.**

This year we add the sponsorship of **Club de Móstoles,** a humble and motivated team, to help young people with sport, with a huge passion for progressing and a clear goal: to increase the number of teams in the club.

We sponsor the **Club Baloncesto Leganés's women's reserve team.** We offer an academic and sports scholarship and, for the first time, this year we also sponsor the **women's first team.**

Our donation was intended for its **"Extraordinary Support Fund"** to meet the needs of families with children with cancer: to pay for wigs, wheelchairs, hearing aids, prostheses and sometimes meet the costs of treatments or other necessary expenses to improve their quality of life.

A digital Christmas card to help the more disadvantaged children all over the world.

We are Silver Sponsor of the project **"Alliance for Children's Vaccination,"** protecting people's health. **Life expectancy in the Third World.**

Our UK Country Manager, Alison Dickson, ran to support fight against cancer in London.

The money from the regularisation of January, February and March meal vouchers was donated to its Interdisciplinary Thematic Platform from where all the **projects which fight against the expansion of Covid-19** are led coordinately

Thank you very much for being there, despite the difficulties, helping go ahead.
